Instructor was objective and interactive	0% (0)	0% (0)	3% (1)	7% (2)	90% (26)	4.9

4. Additional comments

- I enjoyed this in-service day immensely. Very helpful to have time in the classroom, learning about the dangers of social networking and then working on my webpage. Very useful day!
- NA
- Great use of time!
- very nice job Excellent as always Ann! Thx.
- The presentation from Denise was informative.
- I think we should have posted questions and they could have been answered to the group. Then all could hear the answer and could eliminate instructor answering same question over and over.
- The seminar on Electronic Communications and Social Networking was quite informative. The reality of the dangers concerning private information on the web is disconcerting.
- Ann always does a nice job and I appreciate her patience. I think with the amount of people who were in our class, it would have been nice to have some extra knowledgeable people to help us with our individual questions. Ann's time was stretched trying to reach all of us who are clueless.
- Learned a ton!
- Schoolwires is not a very user friendly system. I've used other webpage software which is much better.
- Great information. We needed more than one instructor for assisting us.
- A worthwhile activity! Many questions were addressed individually to help us to use the SchoolWires features.
- I was able to work on curriculum and webpage. The time was very useful.
- Needed more 1 on 1 with instructor. She worked her tail off answering questions but was difficult for her to get to everyone.
- Thank you Inservice Team for a beneficial Act 80 day!!
- The instructor was terrific. It would of been benfecial to have more than one instructor.

- 5.** How did this workshop contribute to your professional growth?
1. I was able to take the information learned and apply it to my webpage.
 2. Great ideas for improving my website.
 3. Technology
 4. I learned how to communicate better using technology.
 5. Ann provided new info that I will utilize with my site.
 6. educational parent portals in placed on my web, various user guides & help cards
 7. Improved my class website
 8. I learned more options for my web page
 9. It gave me the necessary tools to create a useful webpage.
 10. Gave me some ideas to better my website.
 11. I have learned safe guards and guidelines to follow to ensure my safety and privacy on a professional level.
 12. Improved my ability to manage our site
 13. This was a nice overview, but I really need someone to sit with me and help me because I really did try to use the HELP section, but I really don't know what I am doing.
 14. Provided me with more information on how to make the site more appealing for parents/students.
 15. Website changes more often
 16. I appreciate that I had time to work on my webpage.
 17. I can keep in contact with students and parents more effectively outside of the classroom.
 18. I will be able to set up a webpage. I will have resources on the webpage that students, parents and teachers can easily access. I will be able to put pictures of math activities on a webpage.
 19. I was able to update my web page using images and editing helps from SchoolWires.
 20. I learned skills that may lead to website improvement.
 21. I became acquainted with Social Media Ethics and had time to work on my webpage.
 22. taught me to be very vigilant in my use of computer/electronic communications.
 23. Gave me some time to learn how to work on my web page
 24. This workshop taught me how to utilize mywebsite to communicate with teacher and parents.
 25. The social networking made me aware of things not to do to be secure in my position. I am glad this was presented. It is very helpful to be reminded. The schoolwires training gave me time to get web site up to date.
 26. It was very helpful in setting up and building my teacher website.
 27. it gave me different ideas for my website
 28. I was able to gain more knowledge for my websites.
 29. I don't use social networking with students, it just reinforced that for me.

- 6.** What areas of professional development do you foresee as a future need?
1. I really liked the choices available for today. I really would have liked to attended more than one of the workshops offered.
 2. Grade level meetings
 3. Technology
 4. Technology Classes
 5. Teaching the curriculum with children with constant emotional needs.
 6. continued technology needs met, continued teacher resources shared
 7. more schoolwires or moodle
 8. more technology
 9. Technology
